SPECIAL CONSTRUCTIONAL FEATURES OF HOEGGER ACCESSORIES

(Patent No. 1636364)

HOEGGER surface applied accessories consist essentially of two parts, the fixture proper and the solid brass concealed Back Plate. The back plates are made in several types to facilitate mounting on the various kinds of wall construction. The fixture is rigidly secured to the back plate by a single concealed set screw which is regularly furnished slotted for screw driver, but where fixtures are used in public places, a special theftproof set screw will be furnished when specified.

The advantages of HOEGGER Concealed Plate type mounting are:

- (1) They are easily and quickly installed in any type of wall construction.
- (2) The fixtures are not attached to the back plates until the rooms are completely decorated, thus eliminating any possible loss from theft or injury.
- (3) Fixtures may be easily removed whenever it is necessary to re-decorate the room.
- (4) Due to the construction of the patented back plate post the fixture is forced tightly against the wall surface when set screw is tightened, thus assuring a neat, tight-fitting assembly that will not work loose.

All fixtures except 513 and 518 are interchangeable on all HOEGGER back plates.

HOEGGER Concealed Back Plates are made in several types to meet the various conditions in wall construction:

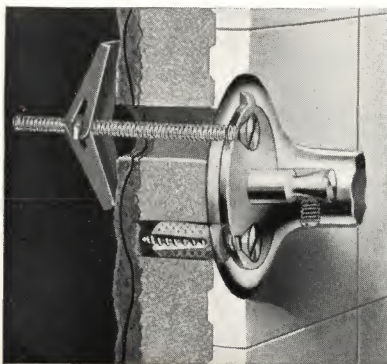

"S" TYPE—Can be mounted on any type of wall. This is our regular plate and is shipped with all fixtures unless otherwise specified.

"SA" TYPE—"Anker-in" plate set in wall with plaster of paris. Anchors made in two lengths— $1\frac{1}{4}$ " long for tile or marble walls and $2\frac{1}{4}$ " long for cement or plaster walls.

"SH" TYPE—May be used with any fixture where an additional hook is desired. Hook extends $\frac{7}{8}$ " below flange. *Important*—As the flange of this fixture must be machined at the factory, this type plate must be specified when fixtures are ordered.

"SB" TYPE—Wall Anchor Bar. Described on opposite page.

"SG" TYPE—Adjustable. Made especially for glass, marble or any sheet wall where the thickness of the material necessitates an adjustable mounting. Can be supplied in any of the Wall Anchor Bar Combinations described on the opposite page.

Concealed Screw (S) Type Plate

INSTALLING DIRECTIONS FOR HOEGGER CONCEALED PLATES

(Patent No. 1636364)

All Hoegger Concealed Plates are mounted so that lug is on top (Figure 1). This lug fits in a recess and keeps the fixture from turning on the concealed plates.

Where fixtures require two concealed plates, as towel and grab bars, carefully measure center to center distance of plates from assembled fixture.

NOTE—Where conditions warrant, a templet will be furnished for all double plate fixtures.

IMPORTANT WHEN ORDERING

If Anker-in type wall fastening is wanted add (SA) to catalogue numbers; if concealed screw type is wanted, add (S) only.

Fig. 1

Fig. 2

Anker-in (SA) Type Plate

INSTALLING DIRECTIONS FOR CONCEALED SCREW (S) TYPE PLATES

On Wood—Use inclosed wood screws.

On Tile—Use inclosed wood screws and lead shields.

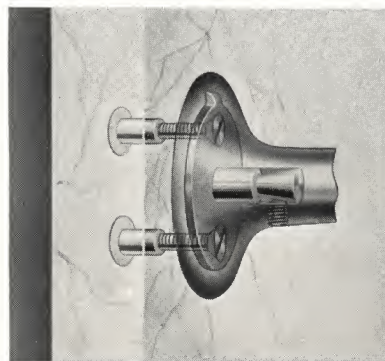

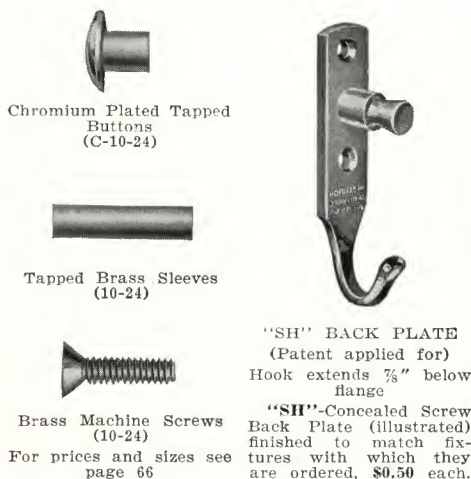

On Plaster—Use inclosed wood screws and rawl plugs or toggle bolts.

NOTE—Plate may be fastened by top screw only, fixture put on and adjusted as required, then fixture carefully removed and hole drilled for bottom screw.

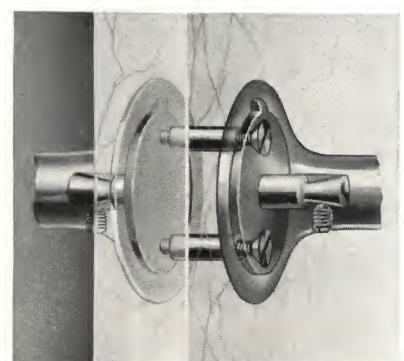

INSTALLING DIRECTIONS FOR ANKER-IN (SA) TYPE PLATES

Cut hole in wall $\frac{5}{8}$ " wide, $1\frac{5}{8}$ " high and $1\frac{1}{2}$ " deep, then undercut at rear to $1\frac{5}{8}$ " round to allow anchor to turn. Fill hole with plaster of paris, placing some on anchor, and insert with lug at left (Figure 2), then turn until lug is on top (Figure 1). Hold until set—about one minute.

Important—Fixtures should not be put on plates for at least one hour or preferably after room is decorated and ready for occupancy.

"S" Type Plate Mounted on Marble with Chromium Plated Buttons and Screws

"S" Type Plates Mounted Back to Back on Marble with Sleeves and Screws

Important—Drill Holes Vertically $1\frac{1}{8}$ " Center to Center

Mounting Features

HOEGGER
ACCESSORIES

HOEGGER WALL ANCHOR BARS

(Patent applied for)

This type of wall anchorage was developed for large installations such as hotels, office buildings, apartments, schools, etc.

Can be used on new work only, as bars must be installed as tile wall is laid.

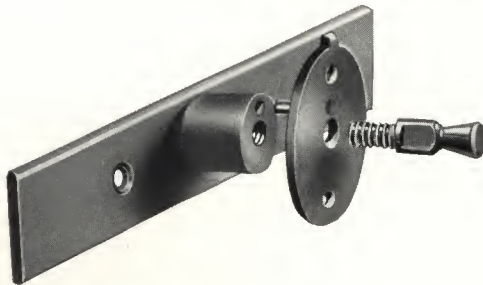

In addition to spacing for double post fixtures they as-

sure that the fixtures will be level as the bars are placed on top of a course of tile nearest the proper height. Single post bars are provided with a leveling pin, which automatically levels them with the tile.

Always specify tile thickness when ordering Wall Anchor Bars.

IMPORTANT WHEN INSTALLING WALL ANCHOR BARS

- (1) Lug on Round Brass Plate must be on top.
- (2) Round Brass Plate must be kept tight against tile surface.

"SG" Type Plate (For Glass Walls)

Adjustable
Described on opposite page

"SB" Wall Anchor Bar with Single Post Fixture

MOUNTING HEIGHTS FOR HOEGGER ACCESSORIES

The mounting heights shown on this page are offered for your convenience. Due to slight variations of bathroom fixtures and local conditions, these heights are necessarily an average—they have been found to apply to the majority of installations.

From experience, it has been found that only a very slight deviation from "63 inches" to the center of the medicine cabinet is satisfactory.

Mounting heights for electric lighting fixtures will be found under each fixture on pages 39 and 40.

General Information

HOEGGER Bathroom Accessories are made in two stock designs. "Parfait" (design patent No. 70560) and "Standard," which permit a wide selection from two complete lines of matched designs.

FINISHES OF HOEGGER ACCESSORIES

Medicine Cabinets. The electrically welded $\frac{1}{8}$ " steel cases are finished in baked white enamel or colors on order. The doors are finished as described under each cabinet.

Mirrors. HOEGGER Mirrors are made in many designs and sizes and are equipped with a patented concealed hanger, described on page 33. Mirrors with brass frames can be furnished in any of the finishes given below under accessories. Prices are listed under each mirror.

Accessories. All Accessories are made of solid brass, and are mounted on the wall with a patented concealed plate, described on pages 9 and 10. They are supplied in the following finishes which are designated by placing a letter before the catalogue number.

<i>Price</i>	<i>Prefix</i>	<i>Finish</i>
As Listed	"W"	HOEGGER's "Wyco"—a soft white velvety finish that is guaranteed not to blister, crack or change color.
See Table	Name of Color	Colored Accessories—Similar to "Wyco"—furnished any color desired on order.
As Listed	"C"	"Crodon"* (chromium plate), a permanent non-tarnishable finish; no abrasive necessary to clean.
"Crodon" Price Plus 10%	"OS"	"Old Sheffield"—Satin finished "Crodon" (chromium plate).
"Wyco" Price Less 10%	"N"	Nickel Plate. Every modern improvement in nickel plating is used in the HOEGGER shops.
"Crodon" Price	"NS"	Solid (18%) Nickel Silver. The finish is the highly polished surface of the nickel silver.
On Application	"RG"	Roman Gold (20-year coin gold plate)—A beautiful dull rich finish.
On Application	"SG"	Satin Gold (20-year coin gold plate)—A most distinctive finish similar to "Old Sheffield."
On Application	"PG"	Polished Gold (20-year coin gold plate)—A highly polished finish.
On Application	"S"	Silver Plate—A heavy plate of silver, fully guaranteed by HOEGGER.

* Crodon is the trade name of The Chromium Corp. of America and Hoegger, Inc., is licensed to use their process.

PRICES OF COLORED ACCESSORIES AND LIGHTING FIXTURES

ANY COLOR

1 to 25 Articles, ADD 25% to Crodon Prices
26 Articles and over, same as Crodon Prices

PRICES AND DELIVERIES

Trade discounts on application, subject to change without notice.

A handling charge of 25c is made for all orders under \$10.00 net. An extra charge of 3% is made for all export packing.

The carriers are responsible for goods lost, damaged or delayed in transit, and in such cases the consignee must immediately notify the carrier agent at destination

in writing in order to substantiate formal claim when presented.

No claims allowed unless made within TEN days of receipt of goods.

Orders covering special goods are not subject to cancellation, except upon agreement to make payment for special work which has been performed.

Orders for large quantities and for colored products should be placed as far in advance as possible.

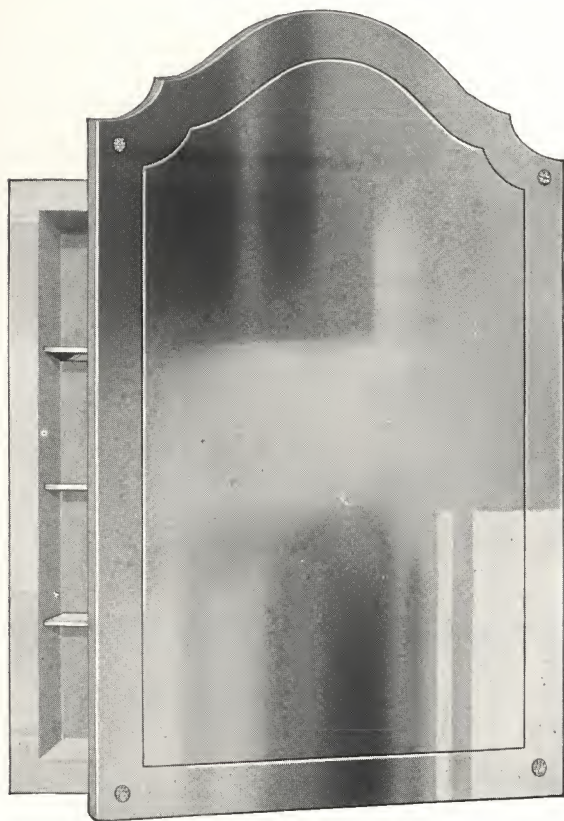

"Parfait" Cabinets and Mirrors

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Genuine French Plate Mirror Entirely Conceals the Medicine Cabinet

"Parfait" Recess Medicine Cabinet
(Patents 1646200, 1707013)

"PARFAIT" RECESS MEDICINE CABINETS

Catalogue No.	Mirror	Glass Shelves	Rough Opening	List Price

C-51-P	22x32	4-17½x4¼x⅝	18½x24½x4½	\$120.00

(For Cabinet details see page 21)

For colored door frame, add \$5.00.

For colored cabinet and door frame, add \$20.00.

SPECIAL DEPTH CABINETS

These cabinets are regularly furnished 3½ and 4½ inches deep at the prices shown, but can also be supplied in the following depths on order—

6 inches deep.....	Add \$10.00
8 inches deep.....	Add 15.00
10 inches deep.....	Add 20.00
12 inches deep.....	Add 25.00

"PARFAIT" MIRROR ONLY (No Cabinet)

Catalogue No.	Mirror	List Price
C-950-SP	18x26	\$60.00
C-951-SP	22x32	\$80.00

These Mirrors are equipped with HOEGGER'S Patented Concealed Hanger as described on page 33.

NOTE: Add \$20.00 to list prices for gold back mirror in place of regular silver mirror.

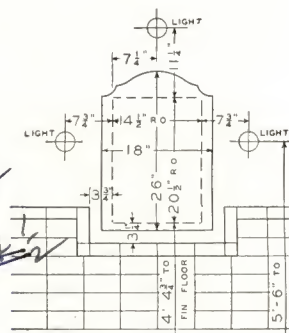

For colored mirror frame, add \$5.00.

This cabinet is for use in high class residences, club or hotel rooms where a cabinet of exceptional beauty and design is desired.

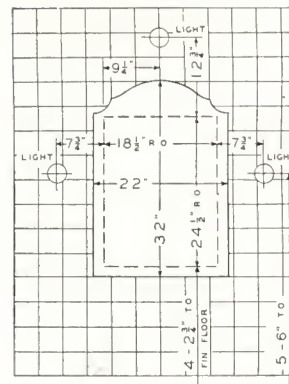

The design of the front of the cabinet (the mirror entirely covers the cabinet) gives it the appearance of a beautiful mirror and conceals the fact that a medicine cabinet is housed behind the mirror.

Construction Features—Door itself is made of Haskelite (a 5-ply wood frame) with concealed hinges braced by a brass corner piece embedded into this door—no tinning sound when door is closed. Doors open to the left on order. Door has a stop so it cannot be wrenched off the hinges; has no knob—door is opened by placing fingers in recess at bottom edge of frame.

Mirrors supplied without mitre lines if desired.

NOTE: Add \$40.00 to list prices for gold back mirror in place of regular silver mirror.

For colored mirror frames, add \$10.00.

"Triple-Parfait" Cabinets

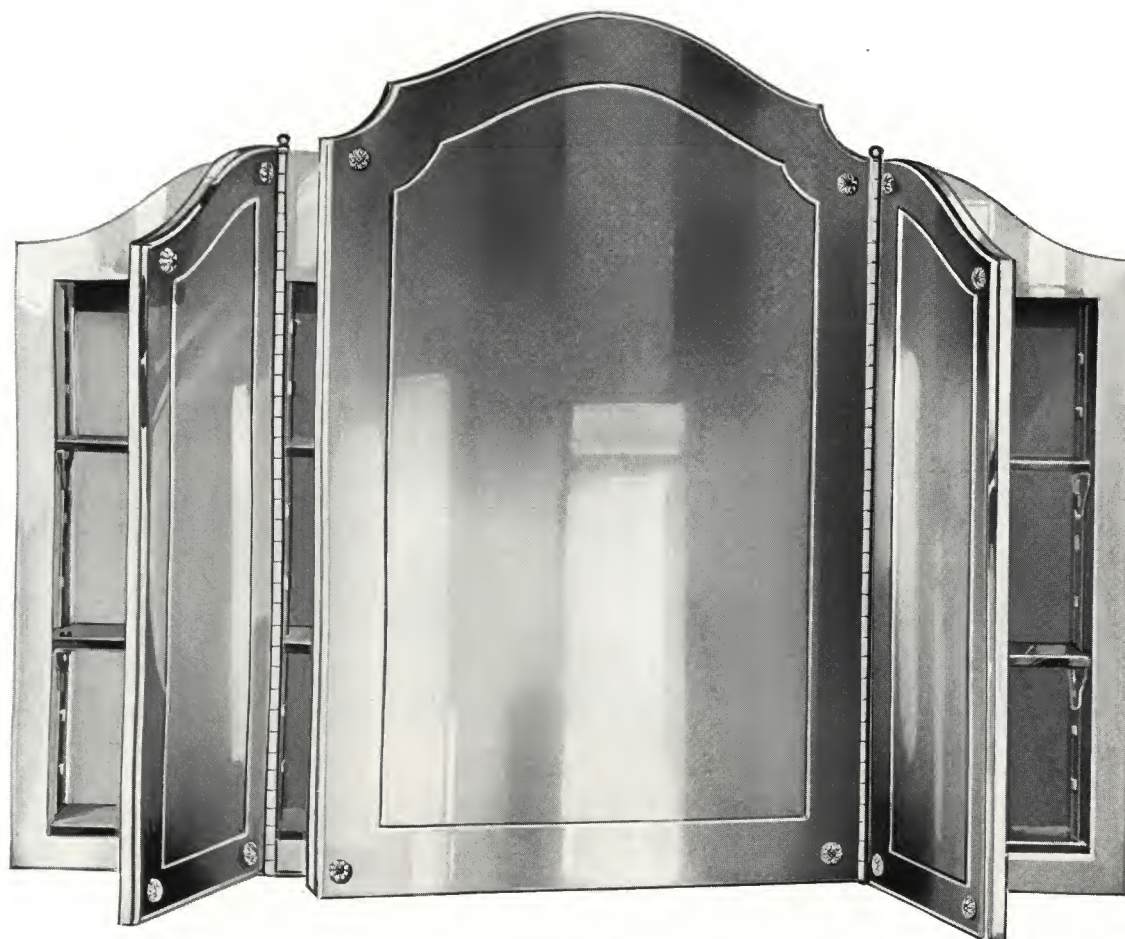

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Genuine French Plate Mirror Entirely Conceals the Medicine Cabinet

In creating this super cabinet, HOEGGER offers a cabinet which cannot fail to meet the demands of the most critical clients.

The three separate medicine cabinets give an abun-

dance of room, and when the mirrors, which completely conceal the side cabinets, are opened, while there is freedom of movement, there is enough stiffness to keep them in any position that they are placed.

"Triple-Parfait" Recess Medicine Cabinets

(Cabinets under all three mirrors)

(Patents 1646200, 1707013)

"Parfait" Cabinets and Mirrors

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Genuine French Plate Mirror Entirely Conceals the Medicine Cabinet

This cabinet is the Straight Top "Parfait" with side mirrors. There is a constant demand from those who want extreme simplicity for this type of cabinet.

In addition to being used as a medicine cabinet in the bathroom, it is adapted for use as a dressing mirror and cabinet elsewhere.

ELECTRICALLY WELDED STEEL RECESS SUPPLY CABINET

Genuine French Plate Mirror Entirely Conceals the Cabinet

C-65—"Impériale" Recess Supply Cabinet and Dressing Mirror
(Patents 1646200, 1707013)

"Impériale" Recess Supply Cabinet and Dressing Mirror

(Patents 1646200, 1707013)

This new product by HOEGGER provides ample room for storage of the necessary bathroom supplies in the bathroom, and at the same time provides a beautiful dressing mirror.

The mirror on the cabinet illustrated is 20 inches wide and 60 inches high.

The depth of the cabinet must necessarily be determined by the room available on the job. Regularly furnished $4\frac{1}{2}$ " deep, but can be supplied any depth up to 12" on order.

Prices of other depths on application.

The mirror frame is $\frac{7}{16}$ inch solid brass, regularly finished in Wyco (white) or Crodon (chromium plate), but can be furnished in colors if desired.

Colored mirror frames furnished at prices shown. Price of Colored cabinet and mirror frame on application.

Cabinet is equipped with 4 plate glass shelves, adjustable every 2 inches, and 1 stationary shelf at bottom.

"Impériale" Cabinets and Mirrors

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS
Genuine French Plate Mirror Entirely Conceals the Medicine Cabinet

"Impériale" Recess Medicine Cabinet

(Patents 1646200, 1707013)

One of HOEGGER's most popular medicine cabinets. The narrow 7/16" frame around the French Plate Mirror, finished in Crodon, Wyco (white) or color (on order), makes this cabinet distinctly individual and attractive. The door covers the entire cabinet—there is no knob to mar the straight line symmetry. It is opened by placing the fingers under the bottom edge of the frame. Doors open to left on order.

Mirrors supplied without mitre lines if desired.

"Oval-Impériale" Medicine Cabinet (Patents 1646200, 1707013)

A new cabinet by HOEGGER, correct in every point of design and construction.

This cabinet was first displayed in New York, as a special cabinet, and created such a wide demand among the architectural profession that it is now made as a part of the regular line.

The door has no knob, it is opened by placing fingers under bottom edge of frame.

The standard finish of the door is black with Crodon frame, but any color can be furnished on order.

Wall Safe Recess Cabinets

ELECTRICALLY WELDED STEEL RECESS CABINETS

Door Entirely Conceals Cabinet

WALL SAFES CONCEALED WITH A PLAIN OR ORNAMENTAL MIRROR OR ANY DECORATIVE ARTICLE THAT MAY BE MOUNTED ON A FRAME

(Patents 1646200, 1707013)

Any HOEGGER recess cabinet or any article suitable to be mounted on a frame may be easily adapted to entirely conceal a wall safe as shown in the illustration above.

The doors of HOEGGER recess cabinets entirely conceal the cabinets. It is therefore an easy operation to cut the proper hole in the rear of the cabinet case to permit the wall safe to open.

All hinges, door stops, catches, etc., are concealed,

thereby giving the appearance of a beautiful mirror or other article hanging flat against the wall.

The steel case is four and one-half inches deep and is recessed flush with the wall. The back is cut to meet the requirements of the wall safe for each installation.

Cabinet may have a plain or ornamental mirror front or HOEGGER will mount any decorative article suitable on the cabinet door, thus allowing a wide selection of decorations.

Hoegger Cabinets and Mirrors can be furnished to your design and specifications on order.

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Genuine French Plate Mirror Entirely Conceals the Medicine Cabinet

"Impériale-Parfait" Medicine Cabinet
(Patents 1646200, 1707013)

"Impériale-Parfait" Recess Cabinets

(Patents 1646200, 1707013)

"Studied simplicity" is the keynote of true art, and in this popular design HOEGGER craftsmen have produced a medicine cabinet which has appealed to all who have seen it.

The narrow 7/16" frame, finished in Crodon, Wyco (white) or color (on order) is correctly proportioned and makes a neat clean frame for the genuine French Plate Mirror.

Doors open to left on order.

Mirrors supplied without mitre lines if desired.

Hoegger Cabinets and Mirrors can be furnished to your design and specifications on order.

"Standard" Recess Medicine Cabinets

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Mirror Covers Cabinet Only—Cabinet Flange Exposed

"Standard" Recess Cabinet with Side Mirrors

These Cabinets are of the same construction as the 240 and 241, shown on the opposite page, with the exception that side mirrors have been added. These side mirrors are hung on piano hinges, a sturdy and noiseless support, which allows perfect freedom of movement, but

still retains enough stiffness to keep the mirrors in any position desired.

The finish is baked white enamel throughout.

The workmanship and finish on HOEGGER products are the same regardless of price.

Equipped with lock and key when specified, add \$10.00 to list price.

Hoegger Cabinets and Mirrors can be furnished to your design and specifications on order.

ELECTRICALLY WELDED STEEL RECESS MEDICINE CABINETS

Constructional Features and Methods of Installation

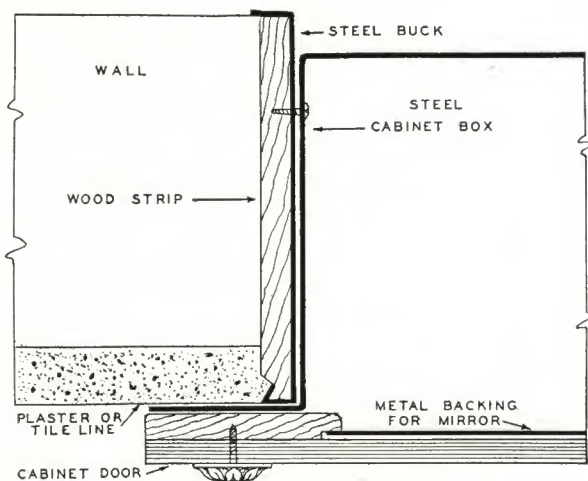

HOEGGER electrically welded Steel Medicine Cabinets are made of 14 gauge steel, finished with baked white enamel which will not crack, blister or change color under the steam vapors and heat of the bathroom.

They may be installed in a HOEGGER Steel Buck or a

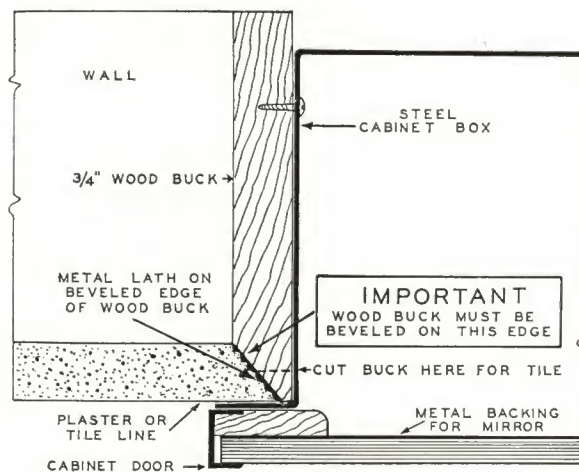

wooden buck built by the contractor. See details below.

The exact rough opening and location from the finished floor are given under each cabinet. The location of outlet boxes for electric lights will also be found on these drawings.

TYPICAL INSTALLATION OF RECESS MEDICINE CABINETS SHOWING HOEGGER STEEL BUCK AND WOOD BUCK

Horizontal Section Through "Parfait" Cabinet Showing Hoeffer Steel Buck.

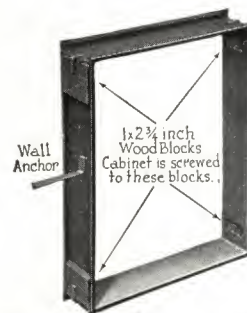

Horizontal Section Through "Impériale" Cabinet Showing Wood Buck.

IMPORTANT—Tile or plaster must be kept flush and to an even plane around wall opening so that cabinet flange will fit tightly against the wall.

HOEGGER STEEL BUCK FOR RECESS CABINETS (Patent 1715032)

A pressed steel buck, 4½-in. deep, which is built into place in a definite location at the time the terra cotta partition is laid up. Eliminates necessity of cutting the required opening in the partition after the walls have been laid and finished. Saves much time and labor and gives a much better appearance to the finished job. Buck acts as a ground for plaster, giving a straight, flush finished plaster job—cabinet therefore fits absolutely flush against the wall in all cases.

Mirror Index

HOEGGER mirrors are available in many shapes and sizes from stock, and are made to your design and specifications on order.

Most of the mirrors which form the doors of HOEGGER medicine cabinets are also supplied as mirrors only and will be found listed on these pages.

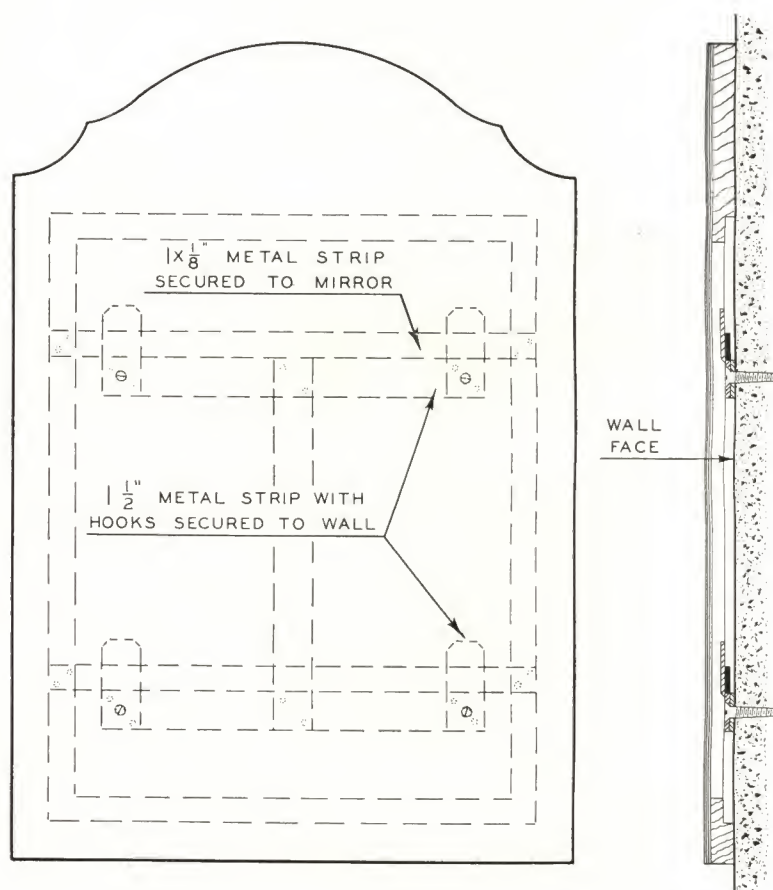

The construction and finish of the frames is the result of long experience in meeting the requirements of all types of installations.

HOEGGER mirrors are equipped with a patented concealed hanger described at the bottom of this page.

HOEGGER Patented Concealed Mirror Hangers

HOEGGER patented mirror hanger consists of two parts, the hanger proper, which is fastened to the wall with screws or toggle bolts, and the pockets or strips, which are fastened to the mirror and hook over the hanger. This makes a safe, rigid mounting, which holds the mirror tightly against the wall surface. To remove the mirror simply raise it straight up for a distance of about two inches.

Utility Mirrors

CONCEALED
HANGERS

These mirrors are of the same construction as those used on the "Impériale" Medicine Cabinets, and are available in any size or shape. Stock sizes only are listed on this page. They are hung flat against the wall with our Patented Concealed Hanger, no screws or fastening of any kind exposed.

Frames made of solid brass, finished in Crodon (chromium plate), Wyco (white), or colors on order.

For colored mirror frames use "Crodon" prices.

Frames furnished in 18% solid polished nickel silver, same price as Crodon.

"Parfait" Shower Curtain Rods

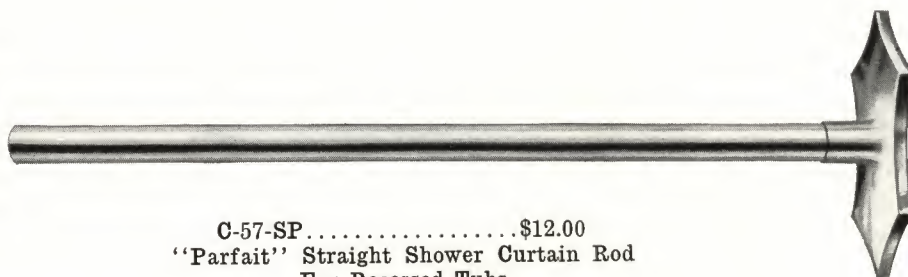

"PARFAIT" SHOWER CURTAIN RODS, CHAINS AND HOOKS

"Parfait" design shower accessories were designed to complete the "Parfait" scheme in the bathroom—to harmonize with the other "Parfait" accessories.

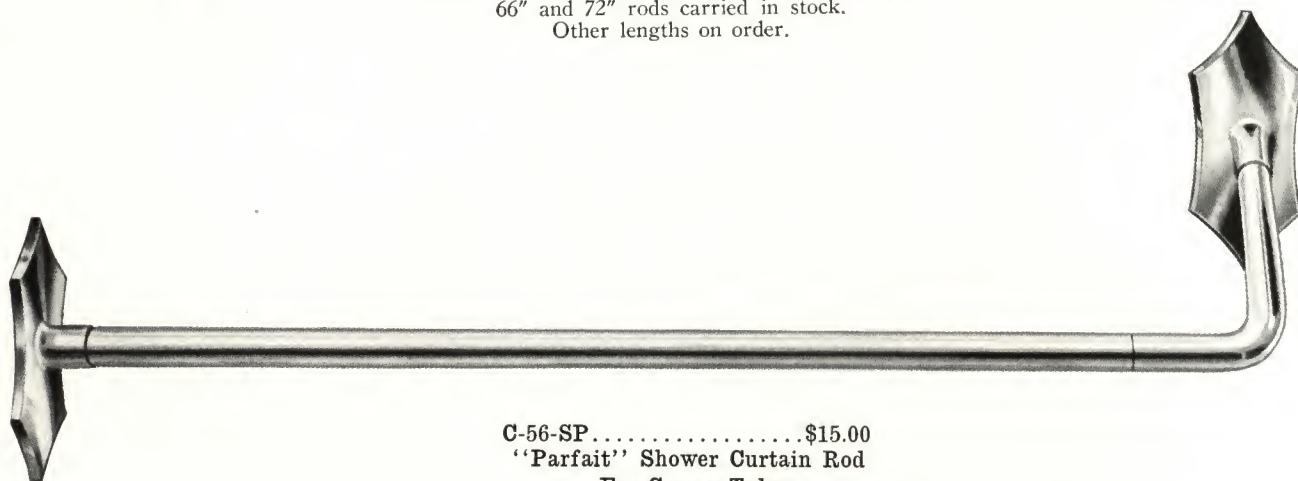

They are made of solid brass, finished in Crodon (chromium plate)—*The Finish That Will Not Tarnish.*

Wall flanges are of the concealed hanger type—no screws exposed.

Curtain rods are made of 1-inch diameter 20 gauge solid brass tubing (16 gauge on order). They are furnished any length or width.

Bottle Opener and Cork Screw

MAKE IT CONVENIENT TO OPEN ANY BOTTLE BY INSTALLING A HOEGGER BOTTLE OPENER IN EACH BATHROOM, KITCHEN AND PANTRY OF HOTELS, APARTMENTS, HOMES, CLUBS AND SHIPS

(Patent 1715033)
(Full size phantom view)

Combination Bottle Opener, Cork Screw and Towel Pin

Fixture to be installed 50" from floor line.

C-17-S, List Price, \$4.00 each

The Three-in-One combination is used for opening metal capped or corked bottles, anchor vacuum caps, and for hanging towel on projecting handle of cork screw.

When not in use the cork screw automatically drops in the channel, which acts as a guard.

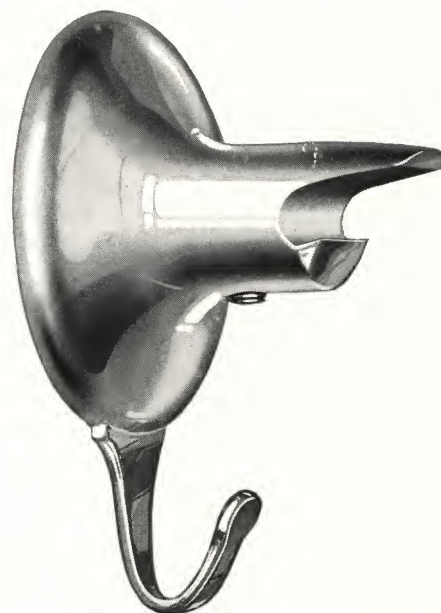

This fixture is furnished in two types—The Bottle Opener only and the Three-in-One combination Bottle Opener, Cork Screw and Towel Pin.

They are made of forged brass, finished in Crodon—the non-tarnishable finish, not even affected by salt sea air. By merely wiping with a dry cloth all finger marks disappear.

Can be installed on plaster, tile or wood with the assurance that it will not work loose.

When installed in public places, always specify Theftproof set screws.

Either the concealed screw (S) type (illustrated in phantom view) or the anker-in (SA) type wall fastening can be furnished. The concealed screw (S) type will be furnished unless otherwise specified.

(Patent 1715033)
(Full size illustration)
Bottle Opener Only

Fixture to be installed 50" from floor line.

C-16-S, List Price, \$2.00 each

The Bottle Opener is used for opening metal capped bottles and anchor vacuum caps.

Glass Shelves

"STANDARD" DESIGN GLASS SHELVES

Brackets are made of solid brass finished in Wyco (white), Crodon (chromium plate) or color (on order).

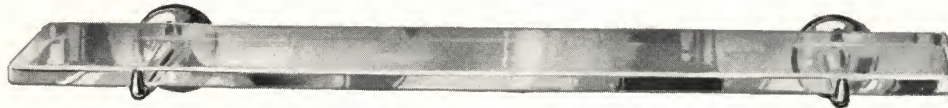

For prices of colored accessories see page 12.

Prices shown are for crystal or opal glass.

For black glass add 10% of Crodon price.

For 1/2" crystal shelves in place of regular 3/8" add \$1.50 to prices shown.

For shelves 6" wide in place of regular 5" add 10% to prices shown.

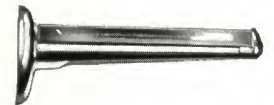

3/8 x 5" Crystal or Opal Glass Shelf

Spring Brackets

(Patent applied for)

Wall Flange, 2 1/4". Projection, 5 3/4".

One of HOEGGER's latest products—a glass shelf that is held rigidly in the brackets, with no metal extending over the top surface of the shelf.
